

PRODUCT DECLARATION

January 7, 2019

International Coatings Company, Inc. ink products marked 'Phthalate Compliant' or 'Non-Phthalate' comply with the following U.S. and international consumer safety and environmental regulations:

- 1. Consumer Product Safety Improvement Act (CPSIA) of 2008, HR 4040, regarding phthalates and lead.
- 2. Consumer Product Safety Act, Title 16 CFR Part 1303 regarding lead.
- 3. California Assembly Bill 1108 regarding phthalates.
- 4. OSHA Hazard Communication Standard 29 CFR 1910-1200 regarding hazardous or toxic substances.
- 5. Resource Conservation and Recovery Act (RCRA) regarding ignitability, corrosivity, reactivity and toxicity.
- 6. ASTM Standard F 963-95, 43.5 regarding Toy Safety and restrictions on Heavy Metals.
- 7. California Safe Drinking Water and Toxic Enforcement Act (Proposition 65)
- 8. European Standard On Safety of Toys EN 71, Part 3 regarding restrictions on Heavy Metals and EC Directive 67/548.

International Coatings Company standard ink products contain less than 90 ppm by weight of lead. Special products that do contain lead-bearing pigments are clearly labeled and sold only on a limited and directed basis.

International Coatings ink products marked 'Phthalate Compliant' or 'Non-Phthalate' are not formulated with the following six restricted phthalates nor are these six restricted phthalates intentionally added to International Coatings inks as part of the manufacturing process: DEHP (Di-2-ethylhexyl phthalate), DBP (Dibutyl phthalate), BBP (Benzyl butyl phthalate), DINP (Di-isononyl phthalate), DIDP (Di-isodecyl phthalate), and DnOP (Di-n-octyl phthalate).

International Coatings products marked 'Non-Phthalate' are not formulated with any orthophthalates, including the six restricted phthalates listed above, nor are any orthophthalates intentionally added to International Coatings inks as part of the manufacturing process.

The information provided is believed to be accurate based on the scientific data supplied to International Coatings by its suppliers and by periodic tests of select International Coatings products and product components by recognized third-party analytical testing laboratories. The information presented is intended only as a source of information and given without guarantee and does not constitute a warranty. Since the conditions under which this information may be applied are beyond its control, International Coatings can assume no liability for the result of the application. Users should independently determine prior to use the suitability of these products for their specific applications. It is also incumbent upon the users of International Coatings products to satisfy themselves that any end products derived meet all applicable regulatory requirements since International Coatings does not control the handling, processing or final use of the end products. Users of International Coatings products should refer to the applicable technical data and material safety data sheets provided by International Coatings prior to use. No warranty, expressed or implied is given.
