

Level up your game

COLORADO M-SERIES

DATASHEET

Are you ready for the next level in productivity and creativity? The Colorado M-series was designed to allow you to say 'yes' to more jobs, create stunning applications and reduce turnaround times. It's modular architecture allows it to grow with your business, and is designed for low cost of ownership.

- **The power of UVgel.** Our unique UVgel technology creates robust, fade and scratch-resistant prints with excellent print quality.
- **White ink without worry.** Developed for the Colorado M-series, our UVgel ink set now brings you a next-level white ink that reduces the hassles associated with white ink. The white ink option can be ordered with the printer or added as a hardware upgrade later by a trained service provider.
- **FLXfinish+.** A game-changer in large-format graphics. Print matte, gloss or mixed matte and gloss in one print, without varnish or an additional printhead. The FLXfinish+ option helps your production stand out from the competition.
- **Impressive media range.** More design freedom to impress your customers. Easily print textured, transparent, colored, reflective, and heat-sensitive media, plus many more! You can even upgrade the M-series to print on magnetic media with a hardware upgrade.
- **Upgradeable.** Is your business changing course or growing quickly? Easily add speed, FLXfinish+, dual roll capabilities and many other new functionalities to your Colorado M-series printer via a simple license.
- **Rock-solid quality.** The Colorado family is built for high uptime and consistent print output.
- **Level up your Colorado into a Factory.** Add a jumbo roll bulk feed system and matching finishing modules for high throughput and overnight jobs.
