The “green” solutions for pallet adhesion

ALBATROSS® WATER-BASED PALLET ADHESIVES

- Most economical way to tack textiles to pallets
 - No solvent, No VOC's & No Odors
 - No Aerosol Adhesive Mess
 - Long lasting tack
 - Tack re-activated with water
- No Propellant, No CO2, No Greenhouse Gases!

ALBATROSS BRUSH-TAC

Doing a lot of flashing? Brush-Tac holds-up extremely well to multiple flashes. With a fast set-up time and long durability (some printers can print all day with a single application), Albatross Brush-Tac keeps your press clean and your adhesive costs down. Albatross Brush-Tac water-based pallet adhesive is formulated for brush or “card” on application. It is more viscous than standard water-based bulk adhesives for easier, better controlled applications. Brush-Tac can also be re-activated with a spray bottle of water further reducing your costs. Newly re-packaged in a 16oz squeeze bottle with a plastic spreader, Albatross Brush-Tac is ready to go for any size printer.
