

706 Series

UV-LED Inks

Mimaki® Roll-to-Roll and Flatbed Series Printers

Nazdar 706 Series inks have been designed as a direct replacement of the Mimaki® LUS120 Series inks for use in Mimaki® roll-to-roll and flatbed series machines, including UJV55-320, UJF-6042mkII, JFX200-2513, and SIJ-320UV.

Primary features are as follows:

- Chemically compatible with the OEM inks for true plug-and-play
- Close color match to the OEM ink set
- Highly flexible
- Long term exterior performance with proven resistance to the effects of UV degradation and color fade.
- 1L container threading designed for Mimaki® Cap B
- Compatible chip for LUS120 series

Substrates

Compatible with a wide range of self supporting flexible and pressure sensitive vinyl, banner, window cling, polyester film, coated papers, backlit fabrics, polystyrene, Dibond®, expanded PVC, polycarbonate, foamboard

Packaging

Colors available in 1 liter bottles.

1 Liter Bottles
