Color charts represented on Nazdar.com are provided to give printers a general idea of the colors available in Nazdar ink lines. Due to the wide variations and inconsistencies in computer monitors and digital color palettes, the colors seen here are only approximations of actual ink colors. To receive accurate color charts, please contact your local Nazdar ink distributor, or contact Nazdar Customer Service at CustServ@Nazdar.com.

Standard Printing Colors

These bold and durable colors offer exceptional printing performance. The standard printing colors provide excellent flow characteristics and are ready to print from the container. Fluorescent colors are available upon request in select ink series.

10 Primrose Yellow

11 Lemon Yellow

12 Medium Yellow

19 Fire Red

20 Brilliant Orange

21 Peacock Blue

22 Ultra Blue

HTY Halftone Blue

Halftone Colors

The primary subtractive colors used for full color reproduction with halftone art are based on SWOP color standards for color hue and density and are used in guiding color standards for commercial proofing systems. A halftone black supplements the four color system. Halftone extender base can be used with any of these colors to reduce the density of the color.
