

PRINT, CUT, AND EMBOSS YOUR WAY TO GRAPHICS SUCCESS

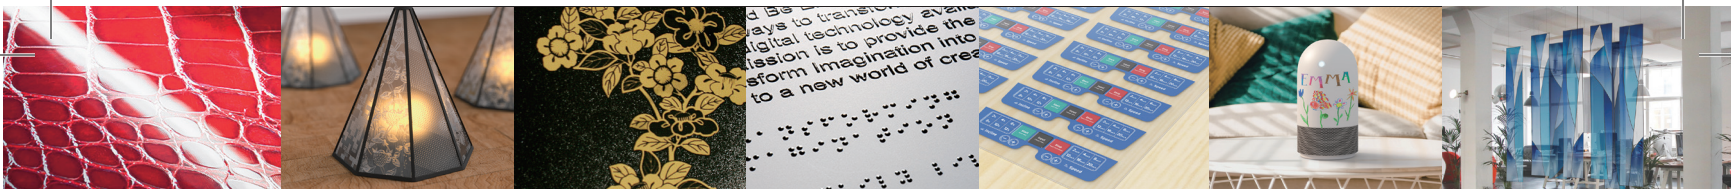

WITH AN AFFORDABLE LABEL AND PACKAGING SOLUTION

Device shown with optional TU-4 take-up unit.

The streamlined VersaUV LEC2-300 is an affordable UV printer/cutter that offers high-quality print results. Versatile and highly-productive, it does the job of multiple devices by directly printing, contour cutting, creasing and simulated embossing onto card, film and other materials in one seamless workflow.

Increased Efficiency with Elevated Color and Quality

- Newly-developed inks, printheads, LED-lamp technology and other enhanced features offer outstanding results
- Dual CMYK for ultra high-quality printing or CMYK with White and Gloss ink for stylish 3D textures and embossed effects
- True Rich Color options for unmatched vibrancy, color reproduction and detailed image quality

Highlights

- Perf-cuts, creases, varnishes and adds special print effects onto a huge range of press substrates and materials
- New Printhead Coating removes remaining ink on printheads to maintain machine health and ink cost-efficiency
- If a nozzle on the printhead is clogged, minimize downtime by turning off a specific nozzle band to allow continued production
- Multiple Print function and a precision media take-up system for a high-volume, unattended operation
- Save money and space with the ideal print/cut solution for office, sign shop, kiosk or store environments
- Precise and powerful cutting force ensures crisp, clean lines around even the most complex shapes
- A high-density ink mode increases the base-coat density of white ink on dark and transparent media for superior color results
- Includes VersaWorks 6 RIP software with extensive color matching functions and many more features to maximize performance

Specifications

Printing method		Piezo ink-jet method	Cutting		Speed:	0.4 to 11.8 in/s (10 to 300 mm/s)
Media	Width	7.2 to 30 in. (182 to 762 mm)			Blade force:	30 to 500 gf
	Thickness	Max 1.0 mm (39 mil) with liner for printing Max 0.4 mm (16 mil) with liner & 0.22 mm (9 mil) without liner for cutting	Ink-curing unit		Built-in UV-LED lamps	
	Roll Weight	Max 55 lb.	Ink Cartridges		Type:	ECO-UV (EUV4) 220 and 500 mL cartridges
Take-up Unit (TU-4)		Optional			Colors:	CMYK CMYK + White, Gloss
Print/cut width		Max. 29 in. (736 mm)	Connectivity		Ethernet (100BASE-TX/1000BASE-T, automatic switching)
