

StreetRap™

CONCRETE FLOOR GRAPHICS

Step Up to Amazing Graphic Impact Indoors, Outdoors – Everywhere

MACTac® TAKES YOU THERE.

A Bemis Company

IMAGin® Digital Media Technology.

Short-term graphic promotional film designed for concrete or asphalt, sidewalks and floors – and select wall surfaces – indoors and outdoors.

What it is.

StreetRap™ is a new easy-to-print 3.4 mil matte film that delivers superb color reproduction, durability and ease of application. It is engineered with an aggressive solvent acrylic adhesive that provides outstanding adhesion to unsealed pedestrian concrete or asphalt surfaces, and to select smooth or slightly rough wall surfaces.

Where StreetRap™ performs

Almost anywhere there is pedestrian traffic, **StreetRap** delivers powerful promotional messages – where other materials fear to tread. Typical applications include:

- Retail Stores
- Convention Centers
- Sports Arenas
- Entertainment Venues
- Schools
- Parades and Other Events
- Public Buildings
- Plant Safety Messages
- Fairs
- Trade Shows
- Private Business
- Marathons

StreetRap can also be used for stunning wall graphics on painted or unpainted cinder block walls, unsealed cement walls and poured concrete support pylons. (Cannot be used on stucco). StreetRap prints beautifully and reliably on a variety of printers, including: Roland, Inca, HP 9000, Mimaki, Vutek and others. Its 90# SuperFlat™ liner provides excellent layflat for solvent, eco-solvent, UV ink jet and screen printing processes.
