## New Medium-Light Pretreat!

**Product Name:** Sapphire Medium – Light Pretreat (MLPT)

**Product Numbers:**

- **SapphireMLPT-20:** 20 liter container / 5 gallon
- **SapphireMLPT-DM:** Drum / 208 liters

**Description:** Sapphire Medium – Light Pretreat (MLPT) is formulated for medium to light-colored garments. MLPT ensures vibrant, opaque prints on difficult fabrics while providing superior UV resistance to prevent sun exposure staining. Although this product is designed for medium and lighter colored garments, it performs well on darker fabrics. \*

**Key Features:**

- **Stain Minimization:** Helps prevent unsightly marks on shirts.
- **UV Protection:** Improved lightfastness, preventing UV staining.
- **Ready to Use:** No dilution required.
- **Durability:** Prints withstand wear and washing. \*

**Application Instructions:**

- Utilize standard existing recipes.
- If needed, adjust application rates as needed based on garment type.
- Do not dilute product.
- Conduct internal wash tests for optimal results.

**Safety Precautions:**

- For safety information, refer to the Safety Data Sheet (SDS).

[\*] Although this product is primarily designed for medium to light garments, it also performs well on most darker garments, but in house application testing is strongly advised. Factors other than garment color could and often do impact performance.
