VIPER SIDEWINDER

FLUID MANAGEMENT TUMBLER

WHATS INCLUDED:

- (1) Viper Sidewinder Base
- (1) 24v 90w Power Adapter
- (2) General Roller Rings*

*General Roller Rings are designed to fit either 10L or 20L containment bottles.

Custom roller rings are available by request.

Sidewinder pictured with one (1) 10L & one (1) 20L ring.

FEATURES

The Viper Sidewinder allows you to change the speed of the rollers to suit your fluid mixing needs.

The user can cycle the rollers to turn on-off-on in 5 minute or 10 minute intervals.

The Sidewinder can also be set to run continuously by turning off the stop cycle.

Two additional Sidewinder units can be attached via Ethernet Cable (Cat 5 or 6, not supplied) to power up to 2 additional units (no extra power supply needed)

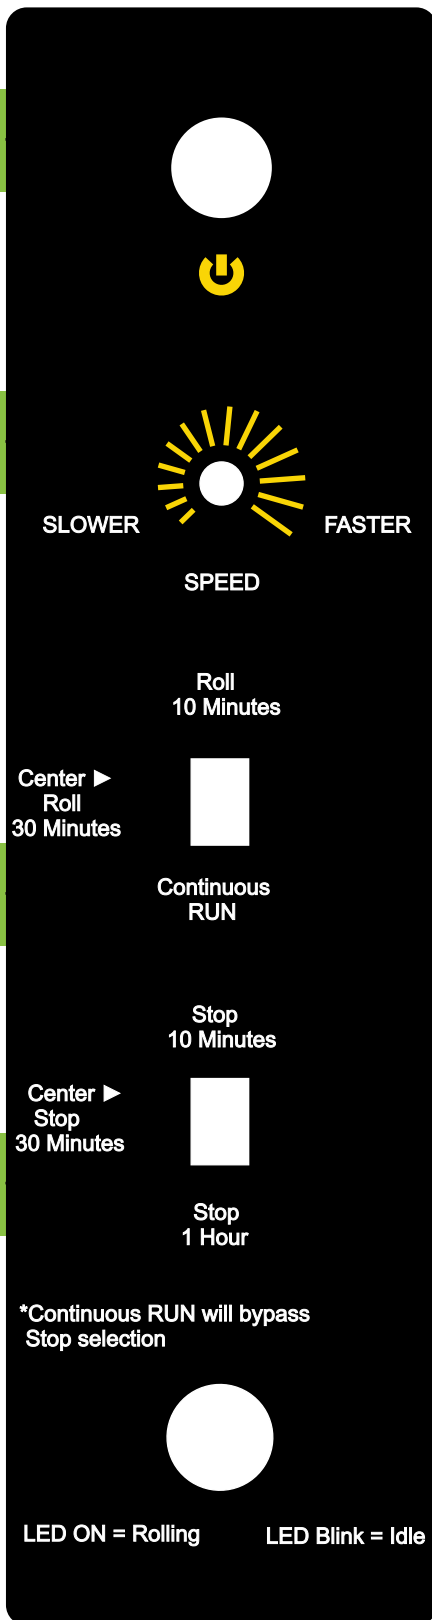

CUSTOM ROLLER RINGS BY REQUEST

iGroup Technologies has the ability to manufacture custom roller rings that will contain your supplied bottle and work on the Sidewinder base for optimal performance. If you have a different bottle size that does not work with the "General Rings", (10L or 20L); we can make custom rings for your needs. (Add'l design fee required)
