

Degreaser Conc. 1:5/20 Gel

Product Data Sheet

Product Description ▼

CPS Degreaser Concentrate 1:5/20 is a water-based and water dilutable preparation for the removal of grease and general contaminants from screen printing mesh prior to applying the stencil, helping you to reduce fish eyes and coating faults associated with coating emulsions.

Application ▼

CPS Degreaser Concentrate is used at the end of the screen reclaiming process or before application of photo stencil emulsions. The product is suitable for use in automatic machines or manual application. For manual use the product is applied with a Yellow CPS Brush.

Product Data Sheet

Safe Handling

CPS endorses best industry practice that operators should wear appropriate personal protective equipment (PPE) when handling all chemical products, even those classified as 'non-hazardous'. Recommended PPE for CPS Products includes gloves and safety glasses (or goggles when handling larger quantities).

CPS endorses best industry practice and manual handling of 25 and 210 litre containers should be risk assessed and suitable controls put in place. Use of mechanical handling equipment may be necessary.

Read Safety Data Sheet for full protection information.

Environmental Management

CPS is an ISO 14001 and ISO 9001 approved company that is committed to developing innovative chemistry for the screen printing industry that offers the best environmental and health and safety benefits that have been incorporated into our Green Screen philosophy.

Flashpoint: Non-flammable
VOC/Litre: 0 grams/litre (EU)
Evaporation Rate: Not relevant
pH: 9 - 10

EMISSIONS TO DRAIN

Small quantities of this product from the washing process are permitted to enter the foul waste system, however it is recommended that you consult your local regulations and consent limits.

The emission of large quantities into the foul waste system should be avoided and you are advised to check local regulations and consent conditions.

DISPOSAL

Waste product that has reached the end of its shelf life should be disposed via an authorised chemical waste handling company.

PACKAGING

Available as a ready to use product in 1 litre, 5 litre, 25 litre, 210 litre pack sizes.

CPS containers are made from high density polyethylene and the box is cardboard, all of these materials can be recycled. Consult an authorised waste handling company for advice on recycling your empty containers packaging.

Product Data Sheet

Green Screen Colour Code ▼

The CPS colour coded system helps identify the product being used while ensuring other cleaning chemicals do not become cross contaminated. Bringing an easily identifiable process to screen reclaim.

Shelf Life / Storage ▼

Products should be kept in original packaging and stored away from direct sunlight or UV light sources. Under the recommended storage conditions, the optimum shelf life is 2 years at a storage temperature of 5-20°C (40-70°F).

Do not freeze.
