## MAGIC MESH PREP™

Combined Liquid Screen Degreaser, Wetting Agent, and Antistatic Treatment; Ready-to-Use

**Magic Mesh Prep** is a ready-to-use liquid conveniently combining the properties of screen degreaser, wetting agent, and antistatic treatment. **Magic Mesh Prep** improves the flow characteristics of liquids, facilitating more uniform coating of direct emulsions and the easier transfer of ink during printing, thereby improving printed image quality. The improved wetting of mesh also promotes the adhesion of indirect and CDF® Direct-Film (capillary system film), and dramatically improves the durability of all stencil systems, for longer printing runs. The antistatic properties of **Magic Mesh Prep** reduce the whiskering and feathering of ink when printing under low humidity conditions.

### PRODUCT FEATURES

**Three products in one**

**Ready-to-use**

**Occupationally; environmentally friendly**

**Shelf life**

### BENEFITS

Screen degreaser  
 Wetting agent: facilitates uniform coating and easier ink transfer during printing; promotes adhesion of film; improves run length of all stencil systems  
 Antistatic treatment: reduces ink whiskering and feathering under low humidity conditions  
 No mixing; convenient; saves time  
 Highest HMIS rating for health, flammability, and reactivity  
 VOC-free; biodegradable  
 1 year storage in original container at 68° F. (20° C.)

### FORMATS

**Magic Mesh Prep** is available in quart (946 ml.), U.S. gallon (3.78 lt.), 5 U.S. gallon (18.92 lt.) and 50 U.S. gallon (189.25 lt.) units. Quart units are packaged 12 per carton; U.S. gallon units are packaged 4 per carton; 5 and 50 U.S. gallon units are packaged individually.
