

TexPrint[®] UT

Utility Textile Grade Sublimation Paper for Water-Based Inks

TexPrint[®] UT's advanced coating chemistry provides:

- A unique light weight print medium engineered for newer high speed digital sublimation printers
- A proprietary coating chemistry with light tack giving customers confidence during transfers
- Superior choice of raw fibers instilling a neutral low profile cockle thus eliminating head strikes
- High transfer efficiency, dense blacks, rich colors achieved with less ink
- Fine detailed definition, smooth gradient transitions
- High yielding rolls, less waste, lower cost of handling
- Reduced ink consumption
- Absolute color consistency
- Superior L.A.B. values

Compatible printers:

- Mimaki
- Mutoh
- Roland
- Epson
- MS
- Reggiani
- d.gen

Tested and approved inks:

- Sawgrass
- Sensient
- J-Teck
- Epson
- Kiian
- Bordeaux

Compatible print heads:

- Epson
- Kyocera
- Ricoh

Available:

From 24" (.61m) up to 126" (3.2m) wide.
450ft to 39,000ft rolls

TexPrint[®] UT is available only through Beaver Paper or select distributors.

Spec Sheet

TexPrint[®] UT

Utility Textile Grade Sublimation Paper for Water-Based Inks

TexPrint[®]UT Utility -- 72gsm -- For use with water based sublimation inks in production environments

Recommended use and applications  **Production Textile Printing**

Fashion, Textile, High-Speed Printers

Key Features of TexPrint[®]UT:

- Lightweight
- Proprietary coating chemistry with light tack
- High transfer efficiency with reduced ink consumption
- Smooth gradient transitioning and fine detail definition
- Designed to work with high speed digital sublimation printers
- Increased throughput on calender heat press
