

VorTex™ Stretch D229 is a Poly/Spandex knitted fabric treated specifically for direct dye - sublimation, Latex, dye-sublimation transfer and UV printing. VorTex Stretch D229 is more opaque than comparable stretch products on the market which allows the product to be used in a wide range of applications; especially in installations where opacity is needed to hide frame and tubing structures. VorTex Stretch D229 is fire resistant and available up to 126" wide.
