

ACCUART™

INKJET FILM FOR PHOTO-POSITIVES

AccuArt™ inkjet film products are the industry standard for waterproof, inkjet receptive media.

For printing positives, negatives, 4-color separations or display graphics, AccuArt brand films provide the greatest quality and most consistent results.

AccuArt3 is engineered specifically to accommodate Epson® Ultrachrome™ ink systems and similar hybrid systems.

AccuBlack is the most popular film in the industry, accommodating any dye-based inkjet system at an economical price.

AccuFast is high quality photopositive film, universally receptive to both dye and pigment ink. Engineered to accommodate the most popular RIPS, AccuFast will accept heavy ink loads, resulting in high density positives and negatives.

AccuMark™ inkjet media is the perfect combination of function and economy. This film offers clarity and translucency far surpassing vellum, with excellent stability at a fraction of the cost of other inkjet films.
