

IMS Dye Sublimation Transfer Paper Standard 93gsm

The ImageStar IMSP93S paper is designed for ink jet printed dye sublimation transfer applications. Ideal for a range of dye sublimation applications from small to wide format. A special coating keeps the ink at the surface of the paper for fast dry times and high transfer rate, while using less ink than competitive products. Excellent stability with the 93 gsm paper weight helps prevent cockling and head strikes.

Features

- High Ink Transfer
- Uses less ink than competitive papers
- Fast dry time
- Affordable quality
