

IMS Haze Remover Liquids

Haze Remover Liquid Products

IMS611 / IMS611C / IMS631 / IMS632

ImageStar Haze Remover Liquid products are designed to remove ghost haze images and ink haze stains from screen mesh. These products are caustic; require gloves and eye protection for safety during use.

Processing Recommendations:

- Apply with a brush and scrub into both sides of the mesh.
- Allow dwell time of 10 to 15 minutes and remove with a high pressure spray. These products must be removed from the screen within 15 minutes or less to avoid mesh damage.
- Spray from the bottom of the screen to the top to allow remaining material to continue to work without being diluted.

Product Highlights:

- ***IMS611 Haze Remover Liquid***
This product is a very aggressive golden brown liquid that removes ghost and ink haze stains from the mesh very fast.
- ***IMS611C Auto Haze Remover***
This product is an economical but aggressive liquid for use with in-line machines that have a haze chamber.
- ***IMS631 SCR02 Stain Remover***
This product is a milder liquid haze and diazo stain remover.
- ***IMS632 New Screen Stain Remover***
This product is a lower caustic; milder ghost haze and stain remover that works fast; and is not as aggressive as the more caustic versions.

Packaging:

- 1 Gallon
- 5 Gallon
- 55 Gallon
