

Screen Wash A7

Product Data Sheet

Product Description

CPS Screen Wash A7 is part of the CPS Green Screen range as a ready to use and emulsifiable ink cleaner. Provides screen printers with a high flash point, low odour, lowest evaporating and low VOC screen wash for manual and automatic machine (EN12921-3:2005 compliant) cleaning of textile, graphics and industrial inks.

Textile

Graphics

Industrial

Application

CPS Screen Wash is used after printing when the screen is going to be reclaimed. CPS Screen Wash A7 is suitable for automatic or manual cleaning. For manual use the product is designed to be applied with a blue CPS Brush and rinsed with water, prior to removing the stencil.

Product Data Sheet

Safe Handling

CPS endorses best industry practice that operators should wear appropriate personal protective equipment (PPE) when handling all chemical products, even those classified as 'non-hazardous'. Recommended PPE for CPS Products includes gloves and safety glasses (or goggles when handling larger quantities).

Read Safety Data Sheet for full protection information.

Environmental Management

CPS is an ISO 14001 and ISO 9001 approved company that is committed to developing innovative chemistry for the screen printing industry that offers the best environmental and health and safety benefits that have been incorporated into our Green Screen philosophy.

EMISSIONS TO DRAIN

Small quantities of this product from the washing process are permitted to enter the foul waste system, however it is recommended that you consult your local regulations and consent limits.

The emission of large quantities into the foul waste system should be avoided and you are advised to check local regulations and consent conditions.

DISPOSAL

Waste product that has reached the end of its shelf life should be disposed via an authorised chemical waste handling company.

PACKAGING

CPS containers are made from high density polyurethane and the box is cardboard, all of these materials can be recycled. Consult an authorised waste handling company for advice on recycling your empty containers packaging.

Screen Wash A7

Product Data Sheet

Green Screen Colour Code

The CPS colour coded system helps identify the product being used while ensuring other cleaning chemicals do not become cross contaminated. Bringing an easily identifiable process to screen reclaim.

Shelf Life / Storage

Products should be kept in original packaging and stored away from direct sunlight or UV light sources. Under the recommended storage conditions, the optimum shelf life is 2 years at a storage temperature of 0-30°C (30-90°F).
