

MagnaPrint® Softener TS Conc

Handle and runnability additive

MagnaPrint® Bases to improve the handle of the finished print. At the same time it improves the dry rub fastness without adversely affecting the wet rub.

MagnaPrint® Softener TS Conc also improves runnability and prevents drying in /choking in the screen without any adverse effect on flash performance of the ink.

Application

MagnaPrint® Softener TS Conc can be added to any MagnaPrint® base paste at 5-20g/kg.

The maximum addition level should not be exceeded as this may adversely affect the printed fabricâ€™s wash fastness.
