

FABRIC TYPES

MagnaPrint® Foil Blocker

MESH

Overprint to prevent foil sticking in unwanted areas

32- 43T (86 -110) mesh

MagnaPrint® Foil Blocker has been developed to prevent foil sticking to areas where it is not required and enable multi coloured designs with foil only sticking to the desired areas.

ADDITIVES

Over print a thick layer of MagnaPrint® Foil Blocker in the areas you do not want foil to stick. Printing is best undertaken using 32-43T (86 -110) mesh screens with rectangular profile squeegees.

STORAGE

It is also possible to use a high build stencil to increase the deposit of MagnaPrint® Foil Blocker to prevent foil sticking in unwanted areas.

HEALTH & SAFETY

Cure according to TDS instructions used for underbase.

CLEAN UP

Foil according to Foil Adhesive TDS.

All information is given in good faith but without warranty. They do not release you from testing our products as to their suitability for the intended processes and uses.
