

LX-660

New, versatile dual-cure emulsion with great durability, superior wet strength and water resistance. LX-660 has excellent solvent resistance, exposure latitude, edge definition, and resolution.

PRODUCT DESCRIPTION

LX-660 is a diazo sensitized, durable, high solids content dual-cure emulsion with superior resistance to water based ink systems as well as most solvent-based inks.

LX-660 is compatible with water-based ink systems and suitable for all general purpose, graphics, and industrial applications. Latitude, resolution, and edge definition are excellent, which makes it ideal for fine line and halftone printing. The emulsion is durable and fast drying.

LX-660 is red in color and is supplied with a diazo sensitizer in powder form.

PRODUCT FEATURES & BENEFITS

- Red color (facilitates stencil inspection)
- High solids content
- Excellent coatability
- Fast drying
- Wide exposure latitude
- Superior wet strength and water resistance
- Excellent solvent resistance
- Excellent edge definition and resolution
- Reclaims easily

SIZES

- 28 oz. units (0.9 liters)
- 1 Gallon (3.785 liters)
- 5 Gallon pail (18.925 liters)
