

DualTex™ HD U360 is a 10.6oz woven polyester with a pearl-satin finish on front and plain weave on back side. 20% of the polyester is reclaimed and is 100% recyclable. It is bath coated with a digital water base, 95% biodegradable coating. The material is optically white with under 0.5% color tolerance lot to lot. A unique dual application feature allows this fabric to be used for front-lit or back-lit signs with a vibrant, high-definition appearance. This product is printable with Dye Sub transfer, Dye Sub direct, some UV and Latex printers. Available in 61" and 122" widths.

Material Details

CHARACTERISTICS	TEST METHOD	METRIC	ENGLISH
Support Cloth	DIN ISO 2076	100% PES	100% Polyester
Type of Coating		Biodegradable waterbase inkjet coating	
Total Weight	DIN EN ISO 2286-2	360 gm	10.6 oz
Binding	Satin Double woven		
Flame Resistance	NFPA 701		
Character	Soft medium poplin texture		
Added Value	Excellent light diffusion and High Definition print quality
