

Strip Mesh Plus

Strip Mesh Plus is an 8 oz coated polyester scrim mesh banner material that comes with a PVC backing. This backer creates an air-tight print surface to prevent ink spray through and helps feed the material through the printer. The backer may easily be peeled off after printing. Like UltraMesh Plus this material has a 37% air-flow through and is ideal for banners, protective barriers and fence wraps. Stripe Mesh Plus works with eco-solvent, solvent and UV inks. Widths range from 54" – 126".
